DESCRIPTION

1 Redford Drive was purchased by the current owner in 2017 and has, since that time, been the subject of a comprehensive scheme of refurbishment. The works undertaken include a full rewire and a complete replacement of the central heating system with new pipework, radiators and boiler, all of the internal walls and ceiling have been replastered with new skirting boards, new kitchen and bathroom suites of quality have been fitted. The house is fully networked with Cat 6 cabling and ethernet points in all of the principal rooms. A guest cloakroom has been created to the ground floor and an EV charging point has also been installed. The internal doors have been replaced with contemporary oak units with modern furniture, a composite front door has been fitted and the property has been redecorated throughout.

The house now provides a superbly proportioned family home which also offers significant potential for extensions to both ground and first floors should buyers so wish and subject to gaining all of the usual and necessary consents. Building regulation approval was obtained some years ago for an extension to the ground floor which, with internal remodelling, would create a sitting room to the front and a large, L-shaped living kitchen to the rear.

The house stands within a superb plot with an impressively deep frontage with a large lawn with driveway to one side with ample scope to extend the driveway provision should buyers require and there is a lovely garden to the rear. The property is double glazed throughout with several of the windows having been replaced.
